

EPUAP 2018 PROGRAMME

Wednesday 12 September 2018		Room
08:00	Registration, badge and bag collection	Registration area
08:00–09:00	Morning coffee & tea	Exhibition area
09:00–10:00	Plenary session <i>Chairs: Jane Nixon, Guido Ciprandi</i> <ul style="list-style-type: none"> Opening ceremony - Opera of Rome Theatre Orchestra, Italian Music of Ennio Morricone Welcome by the EPUAP President Welcome by the EPUAP 2018 Chair Welcome by the President of Bambino Gesù Children's Hospital Overview of the Scientific Programme by the Chair of EPUAP Scientific Committee 	Aula Major (Plenary Hall)
10:00–11:30	Key session 1: Interdisciplinary, interprofessional teamwork, combined with technological innovations: A winning approach to pressure ulcer prevention and management for all age groups <i>Chairs: Lisette Schoonhoven, Marco Romanelli</i> <ul style="list-style-type: none"> Interdisciplinary interprofessional teamwork skills and passion: How to influence performances and outcomes; <i>Guido Ciprandi, Italy</i> A team picture story: A documented homage to the invisible; <i>Christina Lindholm, Sweden</i> Technological innovations and biomechanics: Development and optimisation in pressure ulcer prevention; <i>Yohan Payan, France</i> 	Aula Major (Plenary Hall)
11:30–13:00	Lunch break, exhibition viewing	Exhibition area
	Lunch with experts 1: The role of biomechanics in pressure ulcer prevention and treatment; <i>Cees W. J. Oomens, The Netherlands; Amit Gefen, Israel</i>	Orangery
	Lunch with experts 2: How to enhance the integration of evidence and guidelines into practice; <i>Jane Nixon, United Kingdom; Zena Moore, Ireland</i>	Colonne Hall
13:00–14:30	Key session 2: Multidisciplinary pressure ulcer prevention and treatment for our most fragile patients: From premature to elderly patients <i>Chairs: Marco Cavallini, Nils Lahmann</i> <ul style="list-style-type: none"> Patient-centred care: A call to action for wound management; <i>Ellie Lindsay, United Kingdom</i> Pressure ulcer prevention and treatment in fragile patients: A clinical perspective for a paediatric population; <i>Anna Barbara Schliuer, Switzerland</i> Wound care teams for preventing and treating pressure ulcers; <i>Zena Moore, Ireland</i> Myths and reality in the prevention and treatment of pressure ulcers in very old patients: A multidisciplinary approach; <i>Sylvie Meaume, France</i> 	Aula Major (Plenary Hall)
	Key session 3: IAD: The GLOBIAD experience and the team concept <i>Chairs: Alison Porter-Armstrong, Charlie Beetham</i> <ul style="list-style-type: none"> Ghent Global IAD Categorisation Tool (GLOBIAD): From the beginning to the team-assisted scientific paper; <i>Karen Van Den Bussche, Belgium</i> Introduction of a new Minimum Data Set (MDS) for incontinence-associated dermatitis (IAD); <i>Dimitri Beeckman, Belgium</i> The Ghent Global IAD Categorisation Tool: Next steps; <i>Jan Kottner, Germany</i> 	Aula Minor
	Free paper session 1: Teamwork and pressure ulcer prevention and management in specific patient groups: Spinal cord, intensive care, operating room, elderly, palliative and disabilities (1) <i>Chairs: Valentina Dini, Andrea Pokorná</i> <ul style="list-style-type: none"> Limitations of prophylactic film dressing for intraoperatively acquired pressure ulcers in spinal surgery patients. Investigation before the BOSS trial term; <i>Norihiko Ohura, Japan</i> Effect of cushions for usual/sports wheelchair on elite Japanese male wheelchair basketball athletes; <i>Nao Tamai, Japan</i> Epibole causing delayed wound healing in trochanteric pressure ulcers in spinal cord injury patients; <i>Srinivasa Budithi, United Kingdom</i> Interdisciplinary teamwork in prevention and management of pressure ulcer for people with spinal cord injury; <i>Gunnbjørg Aune, Norway</i> Paediatric wound care in PICU: A 4 years survey; <i>Giancarlo Antonielli, Italy</i> Reduction of pressure ulcer incidence in medical-surgical adult intensive care unit: Implementing the guideline recommendations; <i>Maarit Ahtiala, Finland</i> 	Hall no. 2
	Industry satellite symposium 1	Hall no. 11
	Poster presentations A	Poster area
14:30–15:30	Coffee break, exhibition viewing	Exhibition area
15:30–16:30	Key session 4: Journal of Tissue Viability & Clinical Biomechanics Award <i>Chairs: Dan Bader, Yohan Payan</i> <ul style="list-style-type: none"> Evaluation of the impact of a therapeutic educational program concerning the prevention of risk of pressure ulcers for persons with a spinal cord lesion; <i>Sandrine Robineau, France</i> A novel high-throughput device for cell deformation reveals differences in cell membrane permeability between myotubes and myoblasts in vitro; <i>Lisa Tucker-Kellogg, Singapore</i> CI-NPWT: An essential tool for pocket complications involving cardiac implantable electronic devices in children; <i>Guido Ciprandi, Italy</i> Development and evaluation of simplified Finite Element model for pressure ulcer prevention in sitting posture; <i>Pierre-Yves Rohan, France</i> 	Aula Major (Plenary Hall)
	Key session 5: Basic science: Biomechanics and aetiology <i>Chairs: Corrado M Durante, Peter Worsley</i> <ul style="list-style-type: none"> Current understanding of the aetiology of pressure ulcers; <i>Cees W. J. Oomens, The Netherlands</i> The development of a pressure ulcer conceptual framework; <i>Jane Nixon, United Kingdom</i> Preventing pressure ulcers by manipulating cell dynamics: Mechanobiology-inspired innovation in pressure ulcer prevention; <i>Amit Gefen, Israel</i> 	Aula Minor
	Industry workshop 1	Colonne Hall

	<p>Specialist session 1: Pressure ulcer and malnutrition: A health problem for hospital inpatients: Supporting pressure ulcer care <i>Chairs: Ida Marie Bredesen, Nils Lahmann</i></p> <ul style="list-style-type: none"> Malnutrition as a precursor to pressure ulceration; <i>Mary Litchford, United States of America</i> Nutrition for pressure ulcers: Need for a reappraisal of the guidelines?; <i>Emanuele Cereda, Italy</i> Malnutrition screening in wounded patients to enhance the avoidance to pressure ulceration; <i>Johanne Alhaug, Norway</i> Optimal nutritional care for pressure ulcer prevention and healing requires an adequate multidisciplinary approach; <i>Jos Schols, The Netherlands</i> 	Hall no. 2
16:30–18:00	<p>Key session 6: Biophysical agents in pressure ulcer treatment: Novel therapies <i>Chairs: Charlie Beetham, Corrado M Durante</i></p> <ul style="list-style-type: none"> Technology update on electrical stimulation and wound healing; <i>Michael Clark, United Kingdom</i> Photobiomodulation (PBM) in tissue repair and wound healing; <i>Marco Romanelli, Italy</i> Efficacy of laser therapy at different wavelengths on pressure ulcers and its effect on serum levels of IL-6, TNF-α and IL-2; <i>Jakub Taradaj, Poland</i> Indications for exogenous energies: Topical oxygen and hyperbaric oxygen; <i>Pasquale Longobardi, Italy</i> 	Aula Major (Plenary Hall)
	<p>Key session 7: Medical device related pressure ulcers: Aetiology, research and clinical practice to enhance prevention among persons of different ages and in different settings <i>Chairs: Maarit Ahtiala, Peter Worsley</i></p> <ul style="list-style-type: none"> Medical device-related pressure ulcers: Aetiology and research in adult, paediatric and neonatal settings; <i>Amit Gefen, Israel</i> Clinical observations and prevention in young populations: How to organize a nursing team fighting against medical device-related pressure ulcers in babies; <i>Anna Barbara Schli�er, Switzerland</i> Undue pressures, materials and positions: Exploring the complex world of medical device-related pressure ulcers in adult patients. Is there a place for "Smart materials"?; <i>Dan Bader, United Kingdom</i> Are medical devices in a steady state of evolution? The more sophisticated the device, the wider the spectrum of associated pressure injuries. We need to change the culture to enhance the prevention of medical device related injuries among complex patients; <i>Serena Crucianelli, Italy</i> 	Aula Minor
	<p>Free paper session 2: Basic science: Biomechanics and aetiology & Biophysical agents in pressure ulcer treatment: Novel therapies <i>Chairs: Yohan Payan, Cees W. J. Oomens</i></p> <ul style="list-style-type: none"> Dry skin in home care and pressure ulcer risk: A multi-center prevalence study; <i>Andrea Lichtenfeld-Kottner, Germany</i> CGRP contribution in adaptative adjustments of skin blood flow to pressures: A protection against pressure ulcers; <i>B�ereng�ere Fromy, France</i> <i>Corynebacterium striatum</i> as an emerging multi-drug resistant, nosocomial opportunistic pathogen associated with chronic skin wound infection; <i>Edoardo Virgilio, Italy</i> Comparing the effects of 3 different pressure ulcer prevention support surfaces on the structure and function of heel and sacral skin: An exploratory cross-over trial; <i>Andrea Lichtenfeld-Kottner, Germany; Tsenka Tomova-Simitchieva, Germany</i> Innovative pressure ulcer prevention: Cell dynamics agents for mechanobiological protection; <i>Daphne Weihs, Israel</i> Mini-invasive drainage to treat pressure ulcer deep recesses; <i>Marco Cavallini, Italy</i> 	Hall no. 11
	<p>Free paper session 3: Teamwork and pressure ulcer prevention and management in specific patient groups: Spinal cord, intensive care, operating room, elderly, palliative and disabilities <i>Chairs: Carina B���th, Ulrika K��llman</i></p> <ul style="list-style-type: none"> Migration of retained dressing materials causing non healing pressure ulcers in spinal cord injury patients: A case report; <i>Srinivasa Budithi, United Kingdom</i> Pressure ulcer prevention and intervention for patients undergoing lumbar spinal fusion surgery; <i>Birgitte Skovgaard, Denmark; Merete Lebeck Holm, Denmark</i> Telemedicine between a rehabilitation center and nursing homes or home: Results after 650 teleconsultations for patients with heavy disabilities suffering from chronic wounds; <i>Sandrine Robineau, France</i> A nationwide point prevalence of pressure ulcers in critically ill patients. The national French PRESSURE study: PREvalence of preSSure Ulcers in intensive caRE units; <i>Brigitte Barrois, France</i> Real-time feedback of pressure points during surgery: A pilot study; <i>Eva Sving, Sweden</i> Developing a decision making tool for nurses to improve end of life skin care for advanced cancer patients: A qualitative exploratory study; <i>Ray Samuriwo, United Kingdom</i> 	Hall no. 2
	Industry workshop 2 (16:45 - 17:45)	Colonne Hall
18:30–20:30	Welcome reception	Exhibition area

Thursday 13 September 2018		Room
07:00–08:00	EPUAP Roma Walk	City of Rome
08:00	Registration, badge and bag collection	Registration area
09:00–10:00	<p>Key session 8: Negative pressure wound therapy in paediatric and adult patients <i>Chairs: Paolo Persichetti, Luigino Santecchia</i></p> <ul style="list-style-type: none"> Simplified, portable, canisterless NPWT-systems: A leading technology with psychological optimal benefits; <i>Valentina Dini, Italy</i> Use of negative pressure wound therapy to prevent surgical site infection (SSI); <i>Steven Jeffery, United Kingdom</i> Healing effects on neonatal and paediatric wounds treated with a negative pressure wound therapy: No more into the black list for small patients; <i>Guido Ciprandi, Italy</i> Healing with NPWT: The state of the art in 2018; <i>Luc Teot, France</i> 	Aula Major (Plenary Hall)

	Industry satellite symposium 2	Aula Minor
	Specialist session 2: When updating guidelines for clinical practice, the paediatric population should not be forgotten <i>Chairs: Lisette Schoonhoven, Jan Kottner</i> <ul style="list-style-type: none"> The NPUAP, EPUAP, PPIA pressure ulcer guidelines; <i>Jan Kottner, Germany</i> Updating the EPUAP, PPIA, NPUAP guidelines 2019; <i>Katrin Balzer, Germany</i> Paediatric guidelines development in Costa Rica; <i>Geanina Carvajal, Costa Rica</i> 	Hall no. 2
	Student free paper session 1 <i>Chairs: Steven Smet, Valentina Vanzi</i> <ul style="list-style-type: none"> Soft tissue deformations under the weight-bearing sacrum while using a prophylactic dressing in combination with support surfaces: MRI studies; <i>Lea Cohen, Israel</i> Durability of prophylactic dressings subjected to moisture is critical for effective pressure ulcer prevention; <i>Dafna Schwartz, Israel</i> Investigating the effects of simulated prosthetic loading on lymphatic activity of healthy lower limb tissues; <i>Jennifer Bramley, United Kingdom</i> Dressings cut to shape alleviate facial tissue loads while using ventilation masks; <i>Lea Cohen, Israel</i> 	Hall no. 11
10:00–11:00	Key session 9: Allied health professionals' perspectives of pressure ulcer prevention <i>Chairs: Zena Moore, Amit Gefen</i> <ul style="list-style-type: none"> Focus on persons with spinal cord injury: How to assist them in posture and mobility; <i>Anthony Gelis, France</i> An occupational therapy perspective of the use of technology to monitor weight shifts and repositioning behaviours in sitting; <i>Alison Porter-Armstrong, United Kingdom</i> Footnotes: What do podiatrists bring to pressure ulcer prevention?; <i>Pauline Wilson, Ireland</i> The role of the physiotherapist in pressure ulcer prevention: Supporting the patient through the lifetime risk of pressure ulceration; <i>Menno van Etten, Norway</i> 	Aula Major (Plenary Hall)
	Key session 10: AIUC – AISLeC joint session: Two main Italian wound care societies cooperating against pressure ulcers: Confederation as a team <i>Chairs: Rosa Rita Zortea, Francesco Petrella</i> <ul style="list-style-type: none"> A wound care team for pressure ulcer prevention and treatment in 18 hospitals in northern Italy; <i>Roberto Brambilla, Italy</i> Criteria for “quality” definition of the so-called advanced dressings and new technologies; <i>Alessandro Greco, Italy</i> Heel pressure injuries: Need for a consensus conference; <i>Massimo Rivolo, Italy</i> Achieving evidence-based practice: Calcaneal ulcers' management in infants and children; <i>Valentina Vanzi, Italy</i> 	Aula Minor
	Industry workshop 3	Colonne Hall
	Free paper session 4: Smart materials, sensor measuring, moving detection, “wearables” <i>Chairs: Nils Lahmann, Luigino Santecchia</i> <ul style="list-style-type: none"> Can the efficacy of pressure relieving strategies be assessed through the magnitude of movements performed?; <i>Silvia Caggiari, United Kingdom</i> Innovative biofilm detection system for realizing biofilm-based wound management; <i>Gojiro Nakagami, Japan</i> Robotic mattress for pressure redistribution and patient comfort; <i>Aya Kitamura, Japan</i> Embedded sensing and actuating systems for pressure mapping and monitoring to prevent pressure ulcers; <i>Ricardo Simoes, Portugal</i> 	Hall no. 2
	Poster presentations B	Poster area
11:00–11:45	Coffee break, exhibition viewing	Exhibition area
11:45–12:45	Key session 11: EPUAP Quality Improvement Projects Awards <i>Chairs: Zena Moore, Lisette Schoonhoven</i> <ul style="list-style-type: none"> Protecting the skin our patients live in: Implementing strategies to prevent pressure ulcers; <i>Helen Strapp, Ireland</i> Audit of incontinence-associated dermatitis prevalence and skin barrier product usage in nursing and residential homes in a Welsh health board; <i>Sarah Bradbury, United Kingdom</i> Student nurse preparation for pressure injury prevention practice: A quality improvement project using social media and teaching rounds; <i>Julie Santy-Tomlinson, United Kingdom</i> Mind the gap: Reducing gaps in pressure ulcer documentation through small tests of change; <i>Jeannie Donnelly, United Kingdom</i> 	Aula Major (Plenary Hall)
	Key session 12: Innovations in plastic and reconstructive surgery for pressure ulcers and other challenging wounds <i>Chairs: Guido Ciprandi, Mario Zama</i> <ul style="list-style-type: none"> Spare muscles surgical technics in 4 degree pressure ulcers treatment; <i>Franco Bassetto, Italy</i> Primary report of efficiency of fat grafting in prevention of ischial tuberosity pressure ulcer; <i>Christian Herlin, France</i> Skin-sparing debridement for necrotizing fasciitis in children; <i>Giorgio La Scala, Switzerland</i> Propeller flaps with reduced rotational angles: Clinical experience in various anatomical sites; <i>Paolo Persichetti, Italy</i> 	Aula Minor
	Workshop 1: Challenges in pressure ulcers prevention and management in critically ill patients; Maarit Ahtiala, Finland; Charlie Beetham, Italy	Colonne Hall
	Free paper session 5: Innovations in pressure ulcers prevention bundle: Patient safety, quality of care, evidence based practice and policy <i>Chairs: Ida Marie Bredeesen, Ulrika Källman</i> <ul style="list-style-type: none"> Aminoacidic spray gel vs silver spray powder: A prevention comparative randomized trial; <i>Roberto Cassino, Italy</i> Skin blotting analysis of Interleukin 6 on the buttock of wheelchair basketball players; <i>Takeo Minematsu, Japan</i> Monitoring pressure ulcers as adverse events: National use of the Global Trigger Tool; <i>Lena Gunningberg, Sweden</i> Reducing hospital acquired pressure injuries by implementing WOC nurse-led daily prevention rounds; <i>Chungmei Shih, United States</i> 	Hall no. 2

	<p>Free paper session 6: Negative pressure wound therapy: From premature to elderly patients (11:45 - 12:30) <i>Chairs: Andrea Pokorná, Jakub Taradaj</i></p> <ul style="list-style-type: none"> ■ Preliminary experience with the use of NPWT over exposed vessels: Do we have to revise NPWT contraindications?; <i>Guido Paolini, Italy</i> ■ Extravasation ulcer in newborn: When the immediate skin full-thickness loss may render a limb virtually useless. Needs for a prompt team-common action; <i>Serena Crucianelli, Italy</i> ■ The use of negative pressure wound therapy portable system in pressure lesion management; <i>Simone Toscano, Italy</i> 	Hall no. 11
12:45–13:45	<p>Lunch break, exhibition viewing</p>	Exhibition area
	<p>Garden Class: Natural wound care: Phytochemicals and bioactive natural products for wound healing; <i>Serena Crucianelli, Italy; Guido Ciprandi, Italy, Renato Colognato, Italy</i></p>	Orangery
	<p>Industry lunch symposium</p>	Colonne Hall
13:45–14:15	<p>Annual General Assembly of the EPUAP <i>Chairs: Jane Nixon, Lisette Schoonhoven</i></p>	Aula Major (Plenary Hall)
14:15–15:15	<p>Key session 13: EPUAP-EWMA joint patient safety session <i>Chairs: Zena Moore, Andrea Pokorná</i></p> <ul style="list-style-type: none"> ■ How are we currently collecting the data – prevalence versus incidence; <i>Lisette Schoonhoven, The Netherlands</i> ■ OECD action on international measurement of pressure ulcer prevalence; <i>Ian Brownwood, France</i> ■ Lobbying at the EU level for greater investment/awareness of pressure ulcers as a public health issue/concern; <i>Lucia Medori, Belgium</i> 	Aula Major (Plenary Hall)
	<p>Industry workshop 4</p>	Colonne Hall
	<p>Specialist session 3: Biomarkers for identifying patients at risk of pressure ulcers <i>Chairs: Dan Bader, Cees W. J. Oomens</i></p> <ul style="list-style-type: none"> ■ Inflammatory biomarkers sampled in sebum: The potential for early detection of skin damage; <i>Peter Worsley, United Kingdom</i> ■ Noninvasive metabolic and inflammatory biomarkers for pressure ulcer development; <i>Jibbe Soetens, The Netherlands</i> ■ Can we use differences in tissue response to pressure and shear to identify patients at risk?; <i>Cees W. J. Oomens; The Netherlands</i> 	Hall no. 2
	<p>Free paper session 7: Medical device related pressure ulcers: Aetiology and research to enhance prevention at different ages and in different settings <i>Chairs: Amit Gefen, Jakub Taradaj</i></p> <ul style="list-style-type: none"> ■ Pressure ulcers in hospitalized neonates. Rates and risk factors; <i>Serena Crucianelli, Italy</i> ■ Reducing intensive care medical device-related pressure injuries caused by nasogastric and endotracheal tubes: A pilot study; <i>Fiona Coyer, Australia</i> ■ Australian perspective in advancing clinical care to reduce neonatal skin injuries; <i>Margaret Broom, Australia</i> ■ Medical device related pressure injuries in the neonate: A multidisciplinary device specific approach to prevention and healing; <i>Deanna Johnson, United States</i> 	Hall no. 11
15:15–16:15	<p>Key session 14: EPUAP Experienced and Novice Investigator Awards 2018 <i>Chairs: Jane Nixon, Yohan Payan</i></p> <ul style="list-style-type: none"> ■ Introduction by Prof. Yohan Payan, the chair of the EPUAP Scientific Committee ■ Experienced Investigator Award: The Holy Grail of pressure ulcer prevention, Lisette Schoonhoven, The Netherlands ■ Novice Investigator Award: Technologies to alert clinicians of individual risk of pressure ulcer development; <i>Peter Worsley, United Kingdom</i> 	Aula Major (Plenary Hall)
	<p>Industry satellite symposium 3</p>	Aula Minor
	<p>Workshop 2: Using simulation to enhance knowledge and skills in NPWT; <i>Guido Ciprandi, Italy; Steven Smet, Belgium</i></p>	Colonne Hall
	<p>Student free paper session 2 <i>Chairs: Charlie Beetham, Rolf Jelnes</i></p> <ul style="list-style-type: none"> ■ Using a health economic model to estimate the cost of managing pressure ulcers (grade 2-4) within an acute care setting in Ireland: A feasibility study; <i>Aoife Reilly, Ireland</i> ■ The inflammatory response in IAD; <i>Sofoklis Koudounas, United Kingdom</i> ■ The Outcomes for Pressure Ulcer Trials (OUTPUTs) project: A scoping review about outcomes used in pressure ulcer prevention studies; <i>Anna Lechner, Germany</i> ■ Improvement team for pressure ulcers prevention and treatment: A multidisciplinary approach in an orthopaedic and geriatric private hospital in Rome; <i>Valeria Macari, Italy</i> 	Hall no. 2
16:15–17:00	<p>Coffee break, exhibition viewing</p>	Exhibition area
17:00–18:00	<p>Key session 15: Innovations in pressure ulcer prevention bundle: Patient safety, quality of care, evidence based practice and policy <i>Chairs: Alison Porter-Armstrong, Guido Ciprandi</i></p> <ul style="list-style-type: none"> ■ Alternating pressure mattresses versus high specification foam: Results of the PRESSURE 2 randomised controlled trial; <i>Jane Nixon, United Kingdom</i> ■ Continuous mobility tracking and activity monitoring using smart sensor technology for efficient and effective prevention of pressure ulcers; <i>Nils Lahmann, Germany</i> ■ Embedding of a new risk assessment protocol in the hospital environment; <i>Steven Smet, Belgium</i> ■ National policy for PU prevention and monitoring on national level; <i>Andrea Pokorná, Czech Republic</i> 	Aula Major (Plenary Hall)
	<p>Industry satellite symposium 4 (17:00-18:30)</p>	Aula Minor

	Workshop 3: Repositioning for pressure ulcer prevention; <i>Menno van Etten, Norway</i>	Colonne Hall
	Workshop 4: Collaborating with patients to improve research and practice; <i>Delia Muir, United Kingdom; Emer Shanley, Ireland</i>	Hall no. 2
	Free paper session 8: Multidisciplinary pressure ulcer prevention and treatment in our most fragile patients: From the premature to the aged population & Basic science: Biomechanics and aetiology (17:00-18:30) <i>Chairs: Serena Crucianelli, Ulrika Källmann</i> <ul style="list-style-type: none"> ■ Neonatal skin: How structural difference impact the diagnosis and healing of pressure injuries; <i>Deanna Johnson, United States</i> ■ Pressure injury prevalence: A new look at an old process; <i>Ann Marie Nie, United States</i> ■ The effects of two different pressure relieving support surfaces on the blood circulation deep in the tissues: A positron emission tomography (PET) study; <i>Esa Soppi, Finland</i> ■ The history of a multidisciplinary approach to pressure ulcer prevention in a general hospital; <i>Dirk Milliau, Belgium</i> ■ Hyperkeratosis and delayed wound healing in pressure ulcers: A case series; <i>Thuya Win, United Kingdom</i> ■ Biomechanics of heel pressure ulcers and the effect of Haglund's deformity; <i>Bethany Keenan, United Kingdom</i> 	Hall no. 11
20:00	Conference Dinner	Villa Aurelia

Friday 14 September 2018		Room
08:00	Registration, badge and bag collection	Registration area
09:00–10:00	Key session 16: Overcoming communication difficulties: Telemedicine for remote pressure ulcer management consultations <i>Chairs: Katrin Balzer Steven Smet</i> <ul style="list-style-type: none"> ■ Telemedicine or just better wound care? Take home message; <i>Sergio Pillon, Italy</i> ■ Challenges implementing telemedicine: Lessons learned; <i>Rolf Jelnes, Denmark</i> ■ Interactive telemedicine in nursing homes for chronic wounds care; <i>Nathalie Salles, France</i> ■ Use of tele-wounds in a regional context experience; <i>Francesco Giacinto, Italy</i> 	Aula Major (Plenary Hall)
	Free paper session 9: Innovations in plastic and reconstructive surgery for pressure ulcers <i>Chairs: Luigino Santecchia, Mario Zama</i> <ul style="list-style-type: none"> ■ Complex acquired skull defects reconstruction in children using a dermal substitute and CI-NPWT: A palliative bridge against brain infections; <i>Francesca Grussu, Italy</i> ■ Flap coverage for treatment of pressure ulcers in spinal cord injury individuals: A single- or two stage reconstruction?; <i>Marieke Braafhart, Netherlands</i> ■ Treatment of early-stage pressure injury by using autologous adipose tissue grafts; <i>Tiziano Pallara, Italy</i> ■ Pressure ulcers and spina bifida in the paediatric patient: A case series; <i>Ann Marie Nie, United States</i> 	Aula Minor
	Workshop 5: Selecting and managing dressings and dermal/skin substitutes; <i>Valentina Vanzi, Italy; Serena Crucianelli, Italy</i>	Colonne Hall
	Free paper session 10: Innovative methods, models and projects in pressure ulcer prevention and treatment <i>Chairs: Carina Bääth, Lena Gunningberg</i> <ul style="list-style-type: none"> ■ Incontinence associated dermatitis (IAD) and perianal septic lesions in children with onco-haemathological diseases. Results of a protocol applied for IAD systematic prevention and early treatment 146 patients later; <i>Marjola Gjergji, Italy</i> ■ Development of a working method for implementation of evidence-based measures to prevent pressure ulcers; <i>Ulrika Källman, Sweden</i> ■ Involving service-users in the Outcomes for Pressure Ulcer Trials (OUTPUTs) Project; <i>Delia Muir, United Kingdom</i> ■ A structural equation model of pressure ulcer prevention action in clinical nurses; <i>Okkyoung Park, Republic of South Korea</i> 	Hall no. 2
10:00–10:45	Coffee break, exhibition viewing	Exhibition area
10:45–12:15	Expert teamwork: A winning approach for wounded patients: Complex cases <i>Chairs: Rolf Jelnes, Guido Ciprandi</i>	Aula Major (Plenary Hall)
12:15–12:45	EPUAP 2019, Lyon, France Closing of the conference <i>Chairs: Jane Nixon, Guido Ciprandi</i>
